Summary

I am a passionate and dedicated fresher web developer with a strong foundation in web technologies and a keen eye for

design. I have honed my skills in HTML, CSS, JavaScript, and

popular frameworks such as React and NextJs. I am committed to creating responsive, user-friendly websites and web

applications that provide an excellent user experience.

- Created event websites.
    - Managed Official Website of Aarohan.

Education

NIT Durgapur	**November 2022 - Present**
Department of Metallurgical and Materials Engineering	B Tech

Projects

E library

Project Overview:The E-Library project is a comprehensive web application designed to facilitate digital book borrowing

and management. This project integrates a variety of technologies to ensure a seamless user experience and robust

functionality for both users and administrators.

Technologies Used:

Backend:Node.js: Utilized for building the server-side logic and handling API requests efficiently.

Zod: Employed for schema validation to ensure data integrity and security.

Storage & File Management:Cloudinary: Used for storing and managing book cover images and other media files.

Multer: Implemented for handling file uploads from users.

Frontend:Next.js: Chosen for the main application interface to leverage its server-side rendering and static site

generation capabilities.

React: Used for developing an interactive and dynamic dashboard.

React Hook Form: Incorporated in the dashboard for managing form states and validations efficiently.

ShadCN UI Library: Applied to ensure a consistent and aesthetically pleasing user interface across the application.
